

Navigator Angels of the Orbs

What is a Navigator Angel?

An angel is a helpful being from the Universe who meets us with love and healing and knowledge. Navigator Angels are very good at **guiding us instinctively** to the right place and time for success. This results in better health, prosperity, success, romance, and protection from negative forces.

Hon Sha Ze Sho Nen

In Usui Reiki we learn four symbols. One is used to send healing to distant places and times. This is known in the west as honshazeshonen.

The Navigator Angels can be imagined as colored spheres of light. So to call upon an angel you would breathe quietly, summon up your reiki and then draw with your fingers (or look at a picture) the honshazeshonen symbol over a colored ball while intending to ask an angel for help in finding your path to your wishes.

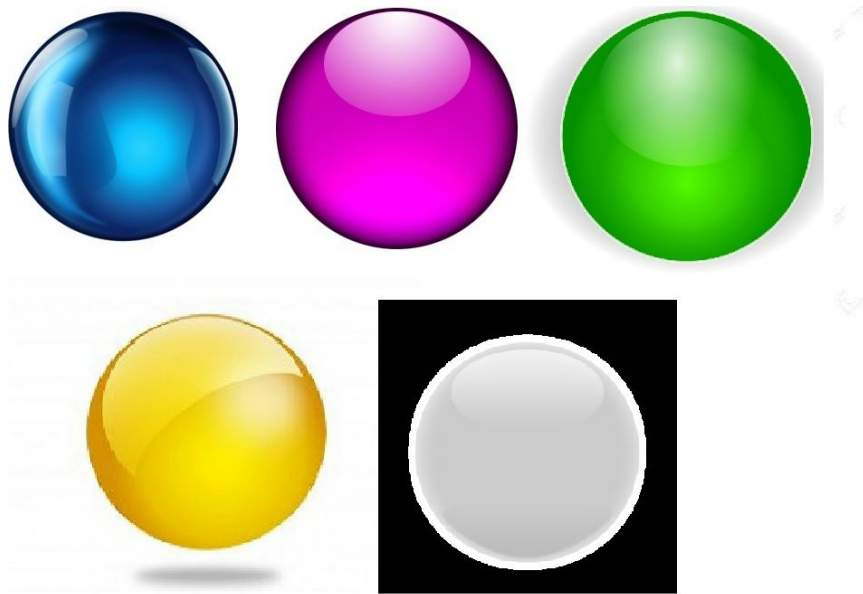

A simpler way is just to say "honshazeshonen bring the Navigator Angel of (Protection, Wealth, Romance, Health, Success) to me so I may be shown my path."

Then, go on with your day, listening to your intuition.

Your healing can benefit from Navigator Angels as well. Ask them to guide your energy where it will help best. Ask them to lead you to the truth.

Receiving this attunement

Just say aloud "I am now ready to receive the attunement to Navigator Angel Orb sent to me by (name of Teacher) in a way that is good for me." And sit quietly for a few minutes and then drink some water. You may feel sensations or see pictures of angels in your imagination, or not, but you will be successfully attuned.

Sending this attunement

Use your favorite method to send this energy to a new student. For instance you can say "I now send the reiki attunement to Navigator Angel Orb to (name of student)" and imagine the energy shaping into a soap bubble which floats to your student.

I hope you enjoy this energy system. It is intended for personal growth and personal good health, and should not replace your doctor or medical care.

love and light,
